A MEMOIR.

A little more than a half century ago, two young men, standing at the threshold of long, useful and happy lives, on the same day cast in their lots with the people called Methodists at the old Monticello church, Jefferson county, Fla. One of these still lingers among us, honored for the integrity of his character and the uprightness of his walk; the other, Dr. R. W. Taylor, has gone to join the majority on the "other side of the river."

Dr. Taylor was born in Mecklenburg county, Virginia, in the year 1825; came to Florida, a young physician, and settled at Tallahassee, in 1834; removed to Monticello in 1836, and here lived to the date of his decease, Sept. 13, 1891.

He was twice happily married—the first time to Mrs. Elizabeth Turpin (nee Simkins) in 1837, the second time to Mrs. Maria Bailey in 1872—no issue by the first marriage, two children by the second both of whom survive.

But for the fact that his was more than a negative character and its positive side needs also to be emphasized, this memoir might be very fittingly summed up and closed in the remarkable statement, that he lived fifty-five years at the same place without a single reproach. His success as a medical practitioner was perhaps largely attributable to two facts: He was faithful to his patients and he was a man of prayer. When he undertook a case, his best thought and closest attention, whatever these might cost him in self-sacrifice, were at once pledged. His remedies were accompanied with prayer; and, when human restoratives seemed entirely ineffectual or could no longer be administered, he still had recourse to prayer, no wonder that such a man won and held the confidence and esteem of all with whom he came in professional or social contact.

In 1851, by the death of Mrs. Emala Bellamy, a relative of his first wife, he was left in charge of four orphan girls to be reared, educated and equipped for life. He was equal to the occasion and true to his trust; and these tender wards—three of them are now grandmothers and all still living—rise up to day and call him blessed. His wise care and truly parental consideration inspired in them a deeply tender and abiding love, beautiful indeed to witness. In these days superior educational facilities had not, as now, been brought within the reach of all the people, and the hours now required to reach Macon in a palace coach were perhaps then lengthened out in to as many days in an arduous overland trip by carriage. But when the Wesleyan school term opened in the fall this faithful guardian was there with his girls, and when the school year was ended he was there again to see them safely home. And these trips, by the way, constituted his only vacations from professional work during his long and busy life.

As a Christian, Dr. Taylor was a man of deep and rich experience, a liberal supporter of the Church and its institutions, undemonstrative in his professions, but ardent and active in his love and always glad when it was said "Let us go into the house of the Lord." His later pastors, after he had become somewhat hard of hearing, will not forget that eager, hungry expression of his countenance while listening to the Word, and his approving nods when he got what he wanted. His presence was a benediction, his "nod" an inspiration to this preacher. Oh, how much we do miss him!

Besides a competency of this world's goods, accumulated by his own honest efforts, he leaves to his sorrowing children the heritage of a good name, and to us all a life fragrant of good deeds done in the name of Jesus. No last words were spoken—none were needed; for his affairs for both worlds were kept always in order. His departure was sudden and painless. A stroke of paralysis brought his friends and loved ones to his side, and then breathed his life out sweetly, and entered upon his reward. Farewell, dear brother, till we meet again!
